Interview conducted by Robert Williams

The all female tribute act The Iron Maidens recently embarked on a tour of the Lone Star State dubbed "Be Quick Or Be Dead: Texas Tour 2010" with playful nicknames like Bruce Chickinson, Nikki McBurrain and Steph Harris; the adulation and devotion that these ladies display for the British Heavy Metal legends Iron Maiden is apparent in everything from their stage gear to their intense live performances. The five piece of Maidens recently took the time to visit with Metal-Rules.com to fill us in a little about the group's history, their current touring plans, as well as the pending "Live In Japan" DVD release.
